How to eat a taco?

1. Raise the taco to your mouth.
Do it with class: the pinkie should be raised
2. Never loose your cool
3. Protect your taco with your whole body,
leaning over it at a 45° angle
4. Struggles? Restrain your hand in the crab position
5. Hold your plate close in case guacamole drops out

**what's pico?*

pico de gallo:
mix of tomato, red onion, coriander,
lemon juice, a lot of loveeeee

*Liever geen koriander op de taco? Laat het ons weten!
